Owned and operated by the City of Cerritos, the **Cerritos Center for the Performing Arts** presents an annual season from August through April. The schedule consists of an eclectic mix of artists. The Cerritos Center has been host to performances by Frank Sinatra, Whitney Houston, Clint Black, The Chieftains, LeAnn Rimes, Dave Koz, Lula Washington Dance Theatre and many others.

The **Cerritos Center** offers a unique, state-of-the-art, flexible performance space with variable seating and stage configurations, ranging from a 1,800-seat arena theater to a 900-seat recital hall setting. This flexibility provides the ideal setting for any performance. The 6,000-square-foot space transforms through a series of moving seating towers and mobile seating wagons, multiple floor lifts and moving ceiling panels.

In addition, the **Sierra Conference Center** is the perfect setting for banquets, parties or special events. The **Associates Room** offers space for club meetings and small receptions. The Cerritos Center and all of its facilities are available for rental. Detailed drawings and CAD files are available for each of the six primary seating configurations, listed below.

- Lyric** - A 1,311 to 1,391 seat proscenium theater for musical theater, dance and popular music performances. An Orchestra Pit or acoustical shell is available.
- Drama** - A 921 to 1,083 seat proscenium theater for plays, recitals and chamber music performances. An optional upstage acoustical shell is available.
- Arena** - A 1,691 to 1,721 seat arena setting, with 500 floor seats surrounded by box seats and balconies on one side for popular music, comedy and jazz performances.
- Concert** - A 1,493 to 1,629 seat concert hall with in-the-round seating and acoustic concert ceiling panels for orchestras, recitals and acoustic performances. Half-concert and modified- concert configurations are also available.
- Cabaret** - A 1,324 to 1,504 seat cabaret setting with up to 67 tables and 412 chairs on a flat floor, surrounded by box seats and balconies, for jazz and other music performances. Exhibitions and conventions are also available with the floor cleared.
- In-the-Round** - A 1,845 to 1,934 seat in-the-round theater for popular music, comedy and jazz performances.

Distance from Centerline: 32' 6"

Rigging - varies depending on the stage configuration

F.O.H. rigging points: Limited access between lighting bridges #1, #2, and none available at #3. Points consist of graded steel eye-bolts protruding through ceiling directly above bridges. Rigging requires significant bridling to clear lighting bridges and ceiling baffles. F.O.H. rigging requires sufficient advance notice.

Stage rigging points: points are available virtually anywhere in the fly loft (Lyric). Low-load points taken directly from the grid's channel iron using grid baskets or motor stands (6 in house). High-load points may be taken from the grid's overhung I-beams and requires bridling.

No-rigging zone: between the F.O.H. rigging points and the fly loft, approximately 19' wide upstage to downstage and spanning the entire width of the auditorium. In-The-Round Configuration, the no-rigging zone lies directly above the center of the stage. Lighting and sound truss running upstage to downstage must be able to span the no-rigging zone. Minimum truss length upstage to downstage is 20' (outside dimensions). In Arena, Cabaret, and Concert with ceiling panels above stage, rigging points downstage and midstage between panels or Three (3) holes in the upstage panels. In Lyric & Drama, areas where ceiling panels pivot and store; See picture below or lineset charts

Rigging accessories include: span sets, steel slings, shackles, spotting sheaves, hand line, and (15) one ton chain motors, (4) half ton chain motors, (6) 500lb chain motors, trussing sections and safety equipment available upon request. Not all motors are available at all times. In Arena and Concert only four one-ton motors are available as the rest are used for house set-up.
